

Mint Leaf Dental
Depal Parikh, DDS

SPECIALTY: General Dentistry. **EDUCATION:** BDS, King's College London (U.K.); DDS, University of Texas Health Science Center at San Antonio. **RECOGNITIONS:** Graduated with honors from both dental schools; Fort Worth Magazine Top Dentist 2015–2021. **MEMBERSHIPS:** Academy of General Dentistry, American Academy of Physiological Medicine and Dentistry. **INNOVATIONS:** At Mint Leaf Dental, we have overhead televisions, noise-canceling headphones, and music in our treatment rooms for relaxing and comfortable visits. We have digital radiography and intra-oral scanning which improves accuracy and safety. We use intra-oral photography and iPads to educate our patients. **UNIQUE PATIENT CARE:** We enjoy getting to know our patients and take the time to listen and create individualized treatment plans. In our judgment-free environment, we create treatment plans that consider each person's needs and desires. With whole patient care, we find and treat the underlying cause of dental problems. Many times, the cause goes beyond the mouth, and patients are routinely referred to other health care providers for further evaluation and treatment. **FREE ADVICE:** Most dental diseases are preventable. Whether it is dental decay, gum disease, or a broken tooth, if you find and treat the cause, it can prevent future pain and expense as well as improve overall health and well-being. **PICTURED:** Dr. Depal Parikh, husband Keith, and daughters Aanya and Iyla.
